Fresa Amthor joined KMLZ in 2007 and in 2018 she was appointed Counsel. She advises clients, of all sizes, on VAT related matters both in Germany and abroad. Fresa specializes in cross-border VAT issues connected to international VAT law. In doing so, she works closely with our foreign partners. Having assisted DAX 30 clients in their corporate tax departments as a temporary in-house VAT expert, Fresa also has extensive experience dealing with all sorts of daily VAT issues which typically arise within large corporations. This includes assisting with questions concerning the implementation and setting up of VAT SAP modules as well as solving every-day VAT issues arising within large group companies. She also participates in external audits. Since 2012, as KMLZ's Head of Compliance, Fresa has also been responsible for the internal quality system in order to support our clients in fulfilling both their domestic and foreign VAT obligations. She also regularly lectures in-house for our clients on various VAT related subjects.

Fresa's other previous experience includes working, for several years, in the VAT department of a large audit company and as a VAT expert in a DAX 30 company.
